PREFACE/PRÉFACE

As part of its mandate, the Public Archives of Canada has accumulated many census records relating to the historical development of present-day Canada. Most nineteenth-century census records which have been collected in their original form are located in the Public Records Division with the records of Statistics Canada, Record Group 31. These records have been microfilmed as a conservation measure and as a means of facilitating their use. In addition, microfilmed copies of census records held in original form in the provincial archives of Ontario, New Brunswick, Nova Scotia, and Prince Edward Island have been obtained by the Public Archives to complete the collection.

In 1963 the Public Archives of Canada published checklists of its census returns on microfilm. This present catalogue includes, in one volume, all of the information in the earlier publications together with additions and corrections that have come to our attention. In addition, 1871 census records have recently been re-microfilmed to include all nine schedules, and the present catalogue lists the new film. The catalogue contains all major census returns for Canada available on microfilm at the Public Archives from 1825 to 1871. Census records prior to 1825, which in many instances are fragmentary and contain few nominal listings, are not included in the catalogue. Census returns subsequent to 1871 remain in the custody of Statistics Canada and are not generally available for research.

I wish to express appreciation to the staff members who worked so diligently in the compilation, editing, and production of this often requested catalogue.

W.I. Smith,
Dominion Archivist.

Dans le cadre de leur mandat, les Archives publiques du Canada recueillent de nombreux dossiers sur les recensements. Ces dossiers font état de l'évolution historique du Canada et datent pour la plupart du XIX^e siècle. Acquis dans leur forme originale, ils se trouvent à la Division des archives fédérales, avec les dossiers de Statistique Canada (groupe d'archives fédérales 31). On les a microfilmés afin d'en assurer la préservation et d'en faciliter la consultation. De plus, pour compléter leur collection, les Archives publiques ont acquis les microfilms de recensements dont les originaux sont conservés aux archives provinciales de l'Ontario, du Nouveau-Brunswick, de la Nouvelle-Écosse et de l'Île-du-Prince-Édouard.

En 1963, les Archives publiques du Canada publiaient des répertoires des recensements qu'elles possédaient sur microfilm. Le présent catalogue rassemble, en un seul volume, toutes les informations contenues dans les publications antérieures ainsi que les ajouts et corrections qui nous ont été signalés. En outre, les documents du recensement de 1871 ont récemment été microfilmés à nouveau pour tenir compte des neuf tableaux d'énumération utilisés. Ce catalogue fait mention du nouveau film et de tous les recensements importants du Canada, effectués entre 1825 et 1871, que les Archives publiques possèdent sur microfilm. On n'y retrouve cependant pas les recensements antérieurs à 1825, qui, dans bien des cas, sont fragmentaires et contiennent peu de listes nominales. Quant aux recensements postérieurs à 1871, ils demeurent la propriété de Statistique Canada et ne sont généralement pas mis à la disposition des chercheurs.

Je remercie tous ceux qui ont travaillé avec diligence à la compilation, à la rédaction et à la production du présent catalogue qu'on attendait depuis longtemps.

L'archiviste fédéral,
W.I. Smith.

INTRODUCTION

This catalogue lists microfilm reels of census returns in the Public Archives of Canada for the present day provinces of Manitoba (1831-1835, 1838, 1840, 1843, 1846, 1849, 1856, 1870), Ontario (1842, 1848, 1851, 1861, 1871), Quebec (1825, 1831, 1842, 1851, 1861, 1871), New Brunswick (1851, 1861, 1871), Nova Scotia (1838, 1851, 1861, 1871), and Prince Edward Island (1846, 1861). As well, some very early lists of population for Augusta Township, Grenville County (1796, 1806, 1813, 1823, 1824) were published in the 1963 Ontario checklist of census returns, and have again been included. As far as can be determined, the census returns for the year 1871 for Prince Edward Island no longer exist. The original returns for New Brunswick, Nova Scotia, and Prince Edward Island prior to 1871 and some 1842 and 1848 Ontario returns are held by the respective provincial archives.

Information on the taking of any particular census can be found in the introduction to each volume of the published census reports, 1851-1971. The published reports are available at most Canadian libraries or through interlibrary loan.

Enumeration Districts

For the purpose of census enumeration, the provinces were divided into census districts, and those districts in turn were divided into sub-districts. Census districts, with a few exceptions, corresponded with electoral districts. As a general rule, census districts were synonymous with cities and counties, sub-districts with towns and townships. Villages, small towns, parishes, and seigneuries were generally enumerated as part of the township in which they were located.

Between one census and the next, districts were often reduced in size or disappeared altogether with the creation of new districts. Users of this catalogue might therefore wish to consult a good historical atlas or a convenient historical map collection in conjunction with their research.

In this catalogue, the microfilm reel numbers indicate where specific returns can be found, but are not intended to imply that returns for a particular district occupy the entire reel. Reels may contain returns for more than one district and some districts may be found on more than one reel.

La liste qui suit présente les bobines de microfilm des recensements que possèdent les Archives publiques du Canada pour les provinces actuelles du Manitoba (1831-1835, 1838, 1840, 1843, 1846, 1849, 1856, 1870), de l'Ontario (1842, 1848, 1851, 1861, 1871), du Québec (1825, 1831, 1842, 1851, 1861, 1871), du Nouveau-Brunswick (1851, 1861, 1871), de la Nouvelle-Écosse (1838, 1851, 1861, 1871) et de l'Île-du-Prince-Édouard (1846, 1861). De même, a-t-on de nouveau inscrit certains registres très anciens de la population du Township d'Augusta, comté de Grenville (1796, 1806, 1813, 1823, 1824) qui avaient figuré dans le répertoire de 1963 des recensements de l'Ontario. Selon toute indication, les résultats du recensement de 1871 de l'Île-du-Prince-Édouard n'existent plus. Les originaux des recensements du Nouveau-Brunswick, de la Nouvelle-Écosse et de l'Île-du-Prince-Édouard antérieurs à 1871 et une partie des résultats des recensements de l'Ontario datant de 1842 et de 1848 sont conservés par les archives des provinces en question.

L'introduction de chaque volume des rapports publiés des recensements (1851-1971) renferme des renseignements sur le dénombrement. On peut se procurer ces volumes dans la plupart des bibliothèques canadiennes et par l'intermédiaire du prêt entre bibliothèques.

Districts de dénombrement

Pour les besoins du recensement, les provinces étaient divisées en districts et en sous-districts, les districts de dénombrement correspondant, à de rares exceptions près, aux circonscriptions électorales. En règle générale, les districts correspondaient aux cités et aux comtés et les sous-districts aux villes et aux cantons. Les villages, les petites villes, les paroisses et les seigneuries étaient généralement recensés à l'intérieur du canton dont ils faisaient partie.

L'étendue d'un district pouvait diminuer d'un recensement à l'autre et certains disparaissaient même avec l'apparition de nouveaux districts. Les usagers du catalogue voudront peut-être consulter un bon atlas historique ou encore une collection de cartes historiques, pour faciliter leurs recherches.

Dans le catalogue, les numéros des bobines de microfilm renvoient à des résultats particuliers, ce qui ne signifie pas pour autant que les résultats d'un district particulier remplissent toute une bobine. Il se peut que les bobines renferment les résultats de plus d'un district et que certains districts soient répartis sur plus d'une bobine.

Names of Districts and Sub-Districts

Names have been entered according to the information obtained from the original census forms, and may therefore differ slightly from present day appellation. Entries have been standardized where possible, abbreviated words have been written out in full, and cross-references have been supplied.

Census Returns, 1825-1861

In most instances, returns prior to 1851 give only the names of heads of households and the total numbers in each household. A few early returns contain only aggregate figures and give no names. Many of the census records contain an agricultural as well as a nominal return. As a general rule in the 1851 census returns, the agricultural returns immediately follow the nominal returns of each township. Such agricultural returns enumerate the extent of farm properties, type and number of implements, crops, livestock and farm products. In the 1861 census, the agricultural returns appear at the end of the nominal census for the whole county. For example, the nominal returns for Belleville, Ontario for 1861 are on Reel C-1032, but the agricultural returns for the same town are found on Reel C-1034.

Census of 1871

The most extensive and by far the most comprehensive census records in our custody are those for the year 1871. These records have been organized and filmed so that all nine schedules for each enumeration district are brought together as a unit. The nine schedules are:

1. Nominal return of the living;
2. Nominal return of the deaths within the last twelve months;
3. Return of public institutions, real estate, vehicles and implements;
4. Return of cultivated land, of field products and of plants and fruits;
5. Live stock, animal products, home-made fabrics and furs;
6. Return of industrial establishments;
7. Return of products of the forest;
8. Return of shipping and fisheries; and
9. Return of mineral products.

Noms des districts et des sous-districts

Les noms ont été inscrits selon les renseignements provenant des formules de recensement originales et peuvent différer quelque peu de l'appellation moderne. Les notices ont été normalisées dans la mesure du possible, les mots abrégés ont été écrits au long et des renvois réciproques ont été fournis.

Recensements dressés entre 1825 et 1861

Presque tous les recensements antérieurs à 1851 ne mentionnent que les noms des chefs de famille et le nombre de personnes par famille; quelques-uns ne contiennent que des totaux sans aucune mention de noms et bon nombre renferment une liste agricole et une liste nominale. En règle générale, dans les recensements de 1851, la liste agricole suit immédiatement la liste nominale de chaque canton. Les données agricoles indiquent l'étendue des fermes, le type et le nombre d'instruments aratoires, de récoltes, de têtes de bétail et de produits de la ferme. Pour ce qui est du recensement de 1861, les listes agricoles suivent le recensement nominal de tout le comté. À titre d'exemple, les listes nominales de Belleville (Ontario) pour l'année 1861 se trouvent sur la bobine C-1032, mais la liste agricole de cette ville figure sur la bobine C-1034.

Recensement de 1871

En matière de recensement, nos dossiers les plus détaillés et les plus exhaustifs sont ceux de l'année 1871. Ils ont été disposés et microfilmés de façon à réunir les neuf tableaux d'énumération de chaque district, à savoir :

1. Dénombrement des vivants;
2. Dénombrement des morts des derniers douze mois;
3. Établissements publics, propriétés foncières, voitures et instruments d'agriculture;
4. Terres cultivées, produits des champs, plantes et fruits;
5. Animaux vivants, produits animaux, étoffes de ménage et fourrures;
6. Établissements industriels;
7. Produits des forêts;
8. Navigation et pêcheries;
9. Produits minéraux.

Users of the 1871 census records should be aware that it is possible to relate the information in schedules 3, 4, 5, 7, 8, and 9 directly to the nominal return (Schedule 1). In these six schedules, page and line references to the nominal return are located in the first column of each page, entitled "Reference to Schedule 1".

Arrangement and Format of the Catalogue

An entry in the Catalogue usually consists of two basic components, a sub-district and a district. A sub-district is entered in ordinary-size type, while a district is shaded and in upper case letters.

Names of districts and sub-districts are listed together in alphabetical order. Some sub-districts and districts have modifiers in parentheses, such as, Village, North, East, West, South, Ward. For purposes of the alphabetical arrangement, these modifiers have only been considered when the two basic components are exactly the same, as in this example:

Farnham (Ouest/West) **MISSISQUOI**

Farnham (Village) **MISSISQUOI**

Entries for districts precede sub-districts of the same name, for example:

KENT

Kent **CARLETON**

A typical entry reads:

Boucherville	CHAMBLY	
1851	C-11172	
1861	C-1271	Agr. only/seulement
1871		
i-1	C-10061	8
i-2	C-10061	8, 9

This is what the entry means:

Boucherville	Name of sub-district (town or township).
CHAMBLY	Name of district (city or county).
1851	A year for which there is a return.

On rappelle aux usagers du recensement de 1871 qu'il existe des renvois à l'indicateur n° 1 pour les indicateurs 3, 4, 5, 7, 8 et 9. Les renvois (page et ligne) sont indiqués à la première colonne de chaque page, sous la rubrique « Renvoi à l'indicateur n° 1 ».

Disposition et présentation du catalogue

Les notices du catalogue se composent habituellement de deux éléments, un sous-district et un district. Les sous-districts sont dactylographiés en lettres minuscules et les districts en lettres majuscules plus foncées.

Les districts et les sous-districts sont répertoriés ensemble dans l'ordre alphabétique. Quelques sous-districts et districts sont qualifiés entre parenthèses par des termes comme village, Nord, Est, Ouest, Sud, quartier. Pour la disposition alphabétique, on a tenu compte de ces qualificatifs uniquement lorsque les deux éléments fondamentaux étaient identiques, comme le montre l'exemple suivant :

Farnham (Ouest/West) **MISSISQUOI**

Farnham (Village) **MISSISQUOI**

Les notices des districts précèdent les sous-districts du même nom, par exemple :

KENT

Kent **CARLETON**

Voici un exemple typique de notice :

Boucherville	CHAMBLY	
1851	C-11172	
1861	C-1271	Agr. only/seulement
1871		
i-1	C-10061	8
i-2	C-10061	8, 9

Ci-dessous se trouve l'explication des différents éléments de cette notice :

Boucherville	Nom du sous-district (ville ou canton).
CHAMBLY	Nom du district (ville ou comté).
1851	Année pour laquelle il existe un recensement.

1871 i-1 i-2	For purposes of administration and ease of compilation, during the enumeration of the 1871 census sub-districts were divided into smaller units. Such divisions were indicated by an alpha-numeric code, such as i-1.
C-11172	Microfilm reel numbers on which census returns are located.
8, 9	The numbers given opposite the listing of the 1871 census returns indicate which schedules in that census are missing, incomplete, or have no entry.
Agr. only	The abbreviations given opposite the census listing for the years 1825-1861 indicate any deficiencies in the holdings for those years. Abbreviations used are as follows:
Aggregate only	Totals only - no names
Agr. incomplete	Agricultural census incomplete
Agr. missing	Agricultural census missing
Pers. incomplete	Personal census incomplete
Pers. missing	Personal census missing

Abbreviations Used in Census Enumeration

Over the years the Public Archives has received numerous enquiries about the abbreviations used in the census records. The following have been most frequently requested:

"Religion" column:

B.C.	Bible Church
C. (of) E.	Church of England
C. (of) S.	Church of Scotland
E.M.C.	Episcopal Methodist Church
F.C.	Free Church
P.F.C.	Presbyterian Free Church
R.P.	Reformed Presbyterian
U.P.	United Presbyterian
W.M.	Wesleyan Methodist

1871 i-1 i-2	Aux fins de l'administration et pour faciliter la compilation, les sous-districts ont été subdivisés une fois de plus lors du dénombrement de 1871. Ces nouvelles divisions étaient indiquées par un code alpha-numérique, tel que i-1.
C-11172	Numéros de bobine de microfilm où l'on a consigné les résultats d'un recensement.
8, 9	Les numéros en regard des résultats du recensement de 1871 indiquent les tableaux d'énumération qui sont absents, incomplets ou qui n'ont pas de notice.
Agr. seulement	Les abréviations qui accompagnent les résultats des années 1825 à 1861 indiquent les lacunes des fonds pour ces années. Les abréviations sont les suivantes :
Total	Totaux seulement - pas de noms
Total incomplet	Recensement agricole incomplet
Agr. manquant	Recensement agricole manquant
Pers. incomplet	Recensement personnel incomplet
Pers. manquant	Recensement personnel manquant

Abréviations utilisées dans les dénombrements

Les Archives publiques ont reçu au fil des ans nombre de questions relatives aux abréviations utilisées dans les recensements. Les demandes les plus fréquentes ont trait aux abréviations suivantes :

Availability of Census Returns

Microfilm may be borrowed for use, three reels at a time, by any library or other institution which possesses a 35 mm microfilm reader and participates in the interlibrary loan arrangement. Requests for loans must be submitted by the borrowing institution on authorized forms to the Public Archives of Canada, 395 Wellington Street, Ottawa, Ontario, Canada, K1A 0N3.

Microfilm copies of most census records may also be purchased at a cost of \$15.00 per reel (1 April 1978). Enquiries should be forwarded to the above address.

Microfilm copies of all census records are available in the self-service reading room of the Public Archives of Canada. The reading room is open twenty-four hours per day, seven days a week, including holidays. However, on their initial visit researchers must register during regular office hours, 8:30 a.m. - 4:45 p.m.

A listing of census records predating 1825 and of documents which complement census records, such as assessment rolls and occupational returns, has been prepared by the Public Archives. It is known as Finding Aid 300. This finding aid is available in microfiche form at subscribing libraries or for purchase from the Public Archives of Canada.

Accès aux recensements

Toute bibliothèque ou autre établissement qui possède un lecteur de microfilm 35 mm et qui participe au prêt entre bibliothèques peut emprunter des microfilms, à raison de trois bobines par emprunt. Les demandes de prêt doivent se faire sur les formules autorisées et être adressées aux Archives publiques du Canada, 395, rue Wellington, Ottawa (Ontario), Canada, K1A 0N3.

On peut aussi acheter pour \$15 la bobine (à compter du 1^{er} avril 1978) des copies sur microfilm de la plupart des recensements. Prière de faire parvenir les demandes à l'adresse susmentionnée.

Les copies microfilmées de tous les dossiers en matière de recensement sont conservées à la salle de lecture libre service des Archives publiques du Canada. Cette salle est ouverte vingt-quatre heures par jour, sept jours par semaine, y compris les jours fériés. Cependant, à leur première visite, les chercheurs doivent s'inscrire pendant les heures régulières d'ouverture (8 h 30 à 16 h 45).

Les Archives publiques ont dressé une liste des recensements antérieurs à 1825 et de sources complémentaires comme les rôles d'imposition et les recensements des professions. Il s'agit ici de l'instrument de recherche 300. On peut se procurer cet instrument de recherche sur microfiche auprès des bibliothèques abonnées, ou on peut l'acheter aux Archives publiques du Canada.
